

RCBS Vocational Tour- Puspadi Bali Foundation

May 5, 2021

- 11 members gathered at 10:30 am at the Puspadi Bali Foundation at Annika Linden Centre in Tohpati, Denpasar, where Pak Nengah Latra (Director) and Dewi greeted us. There was a brief introduction by Dewi about the organization to RCBS members. Then an inspection of the wheelchair workshop nearby and the Soap for Hope (Chairman- PP Alex J.) process of making soap for distribution.

- Puspadi Bali Foundation supports people with physical disabilities, their family and the community to live in an empowered and equal and quality of life. Their Mission is to create prosperity for people with disabilities through rehabilitation, training, empowerment, and education advocacy.

- 1. Rehabilitation and Outreach:** The field workers, whom have a disability, are crucial on the work to find people in need who are hiding away and located in remote areas. As soon as the skilled staff find them, there needs will be met with regular monitoring, evaluation and mobile services in the customized bus provided by RCBS. Puspadi changes lives through high quality and affordable holistic support and services.

Customized Bus donated to Puspadi by RCBS in 2019

2. **Prosthesis and Orthosis:** Puspadi Bali is the only NGO on the island providing prosthesis and orthosis free-of-charge to people with disabilities across Bali and East Indonesia in urgent need. The costs of mobility aid, rehabilitation and transport are all covered by the Foundation, where the prosthesis are all made on site in a special workshop.

3. **Soap for Hope** has been an ongoing project for over 3 years with Puspadi staff making soap, which our club distributes. Presently we are donating 100 bars to hotels (Chairman- Alex J.), 100 Bars to PVK Women's Center, and 200 bars Jodie O'Shea Orphanage (VP John D.).

4. **Wheelchairs:** Puspadi provides quality wheelchairs, distributing them to people in need across Bali and Lombok. The skilled staff modifies each wheelchair to a person to suit their needs, taking into account their physical condition, lifestyle, environment or work commitments.

Description	2016	2017	2018	2019	2020
Prosthetic & Orthotic made & distributed	365	392	427	461	470

Total Value Donation in kinds and cash donation (March – Dec)			3,121,018,820

- Members assembled in the meeting room for a Power Point Presentation about Puspadi Bali given by staff member, Juli.

- **RCBS has supported Puspadi Bali Foundation** for several years with various projects. However, at this time the Board of Directors is ready with final approval, to disperse the remaining funds in our club account of Rp. 97 million towards the “Challenge”, which Pak Latra has addressed to our club and with the endorsement of the major donor to Puspadi, Mr. Jorg Molt. This Vocational Tour was organized with this project in mind, to support the wheelchair workshop (2 spaces) which is presently being built near the Annika Linden Centre for the cost of RP. 20 million per space, per year.

CHALLENGES

Until now we do not have an adequate wheelchair workshop. Currently a new building is being built that can be rented for 20 million per year. The location is less than 100 metres from the Annika Linden Centre and is very easy to reach for people with disabilities who need repairs, fittings, and a wheelchair service centre.

We hope Rotary Club of Bali Seminyak can support us for rental fee of 20 million per year.

- The final part of the Vocational Tour was presenting a plaque to Puspadi (thanks to PP Alex J.) to commemorate our deceased member, **PAG/PP Marilyn Carson**, who contributed so much

energy, effort and time working with Puspadi Bali Foundation. May her memory live on with gratitude.

Adjourned at 12 noon. (Minutes written by Sec. Anita)
