

RCBS Zoom Meeting Minutes- August 4th, 2021

- P. Patrick opened the meeting with the 4-Way test. He then introduced the guest speaker.

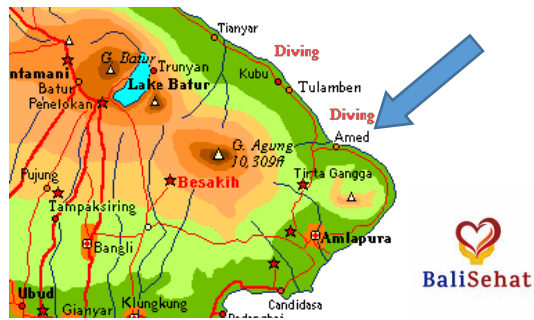

- Guest Speaker: **Sue Bishop**, Rotarian Secretary from RC Bali Sunset Ubud joined our meeting, informing us about the Pratama Bali Sehat Medical Clinic that she and her late husband build in Culik, Abang, Karangasem, near Amed.

Klinik Pratama Bali Sehat is working towards a sustainable program to offer and give medical care to the local community of East Bali.

With the support of the government's BPJS program and supplying medical care to expats and tourists in the region we hope to become sustainable in the future.

Location of Bali Sehat

Over 9000 families in this region live below the Indonesian poverty line earning less than \$100 us per year. Their arid land provides one crop of corn and pumpkin per year depending on the seasonal rain.

Water shortages and lack of resources breed many health problems.

Bali Sehat began its story in 2012 to help these poor forgotten people.

Bali Sehat has treated over 40,000 people since 2012.

Bali Sehat treats patients in the village and volunteers come from Denpasar, as Interact clubs working together.

Health services include Breast check, Pap smear, Optometrist, dentists, Physio therapists, etc.

We can test up to 1,000 patients in a day

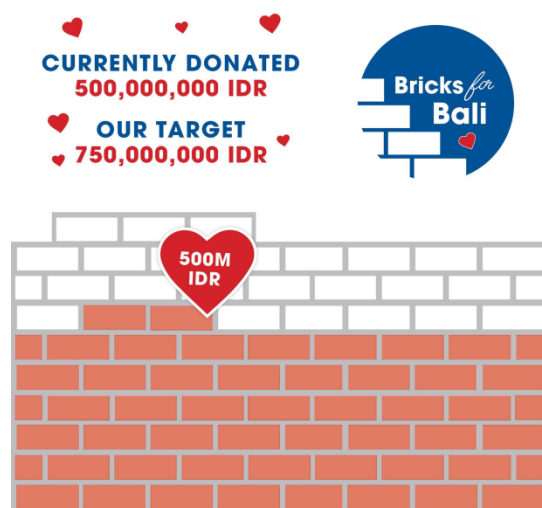

Partnerships with other volunteers bringing complete health services to the people.

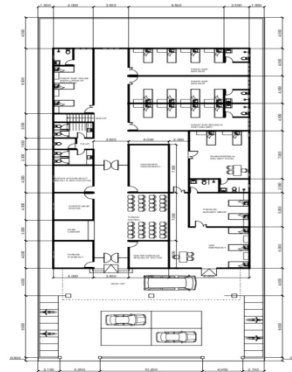

Working with rotary clubs from overseas.

Bricks for Bali raised over 3 billion rupiah towards our new medical center.

Sustainable health care for the future is the dream of Bali Sehat.

Bali Sehat brings first class facilities to East Bali.

Modern facilities with a goal of sustainable operations and organization to bring health care to the poor.

Bali Sehat need funds for equipment:

Beds
X-ray equipment
Laboratory equipment
Birthing unit equipment
Ultrasound

WE WILL NEED THESE ITEMS WHEN BALI SEHAT OPENS THE 24 HOUR INPATIENT WARDS- January 2020.

Please help.
